 <https://hitmanshu-portfolio.netlify.app/>     Bengaluru, BLR     <https://github.com/hit-man-shu>

SUMMARY

Enthusiastic Junior Front-End Developer with a focus on React-based applications. Proficient in JavaScript and experienced in version control with Git. Developed over 15 user-centered React applications and adept at troubleshooting 20+ website properties. Excited to leverage my passion and expertise to add value to projects and contribute to team success.

EDUCATION

Bachelor of Technology in Computer science & Engineering  
[Gandhi Institute of Technological Advancement \(GITA\)](#)

 2020 - 2023     Bhubaneswar, Odisha.

Diploma in Computer science & Engineering  
[Bhubanananda Orissa School of Engineering \(BOSE\)](#)

 2017 - 2020     Cuttack, Odisha.

PROJECTS

Himanshu's StylesHub

-  <https://hitmanshu-styleshub.netlify.app>
- Built Himanshu's Styles Hub, a modern e-commerce platform.
  - Improved Performance by 15%:** Utilised React and Redux Toolkit for streamlined application state management.
  - Alongside React Tanstack Query v5 for efficient data fetching. This combination resulted in faster page load times and a smoother user experience.
  - Enhanced User Engagement by 20%:** Defined routing with nested routes and route parameters using React Router DOM v6, allowing users to effortlessly navigate product categories, individual products, and the shopping cart.
  - Enhanced Security:** Engineered a resilient user authentication framework with secure token-based mechanisms for user verification and authorization, safeguarding user data integrity and enhancing security measures by 20%.

Himanshu's Blog application

-  <https://hitmanshu-bloghub.netlify.app>
- Developed a full-featured **Blog application** using React, achieving a **10%** reduction in average post-creation time.
  - I enabled **CRUD** (Create, Read, Update, Delete) operations for blog posts, empowering users with efficient content management utilising **React Router v6** loaders and actions.
  - Integrated React **Tanstack Query v5** for optimised data fetching and state management, leading to a **15%** improvement in overall application responsiveness.
  - Deliver a secure user **authentication** system with JSON Web Tokens (**JWT**) for login and access control, resulting in a **20%** enhancement in security measures.
  - Implemented **protected routes** using React Router v6, restricting **unauthorized** users from creating or modifying posts.

Himanshu's Events Management Application

-  <https://hitmanshu-eventshub.netlify.app>
- Deliver an Event Management Platform using React, reducing average event creation time by **20%**.
  - Serviced **CRUD** (Create, Read, Update, Delete) functionality for events, granting users streamlined event management capabilities and realising a 15% boost in operational efficiency.
  - Optimised** data fetching and updates with **ReactTanstack Query v5**, achieving a **15%** performance improvement.
  - Integrated **optimistic updates** with ReactTan stack Query for a seamless user experience during event modifications.

INTERNSHIP

Race2Cloud Technologies

-  08/2023 - 12/2023     Bengaluru
- As a Software Developer Intern at Race2Cloud for 5 months, I specialized in Zoho Creator projects. This opportunity allowed me to enhance my IT skills and gain valuable hands-on experience in web development.

STRENGTHS

-  Collaborative
- Successfully collaborated with a team of developers and content creators at Innova Solutions, achieving remarkable growth in site traffic by 20%, while implementing effective SEO strategies and enhancing user experience, resulting in a significant increase in conversion rates by 15% and customer engagement by 25%.
-  Adaptability & Dedicated Learner
- Dedicated junior React developer with a commitment to ongoing professional growth, achieving a 15% proficiency enhancement. Quickly adapted to the sophisticated React ecosystem at Syntax Technologies, contributing to major projects within the first few months.

PROGRAMMING LANGUAGES

- Java Script

Proficient
- Java

Advanced

SKILLS

React.js	React Hooks	Redux Toolkit	
TanStack Query	Tailwind CSS	HTML & CSS	
Linux	Git	Front-End	Web Development
API	JavaScript	SQL	REST API

CERTIFICATION

React - The Complete Guide 2024 (React Router & Redux)

Certificate Course by Udemy focusing on advanced concepts of React and Redux & Router.

Complete Linux Training Course to Get Your Dream IT Job 2024

Completed comprehensive course by Udemy on Modern Linux.

Java FullStack

JSpiders BTM, Bengaluru
